Get a free dental screening for your child!

To celebrate National Children's Dental Health Month, free dental screenings will be offered for all children on **Feb. 23** at The Center for Pediatric Dentistry in Seattle.

When: Saturday, February 23, 9 a.m. to noon

Where: The Center for Pediatric Dentistry, 6222 NE 74th St.
(off Sand Point Way NE, just inside Magnuson Park)

Who's invited: All children from birth through age 18 and their parents/caregivers; **children with special needs** are especially welcome!

The American Academy of Pediatric Dentistry says every child should see a dentist by age 1 for lifelong healthy smiles. This is a great opportunity to bring in your 1-year-old for that important first visit!

Each visit will include:

- A short visual exam to identify any trouble spots in gums, teeth and mouth
- Conversation with a dentist to answer questions, find out how to prevent dental disease and get tips on teaching children good habits
- Take-home goodies: toothbrush, mouth mirror and coloring sheets
- Demonstrations
- Special appearance by the Tooth Fairy

No reservations needed – plenty of free parking!
